F O R W A R D

WWE GO

FORWARD

When we look back on the 2020-21 school year, many will recall the historical changes to the world due to the pandemic. I will remember the creativity, resilience and sense of community our school showed in the face of unprecedented change. I will recall the spirit our students and teachers displayed when their worlds changed again and again and how everyone continued to fulfill their duties, meet their obligations and challenge themselves to Learn, Lead and Live. And while the events of the past year will be with us for a long time, I will never forget the happiness and joy I saw on the faces of our students and teachers when in April we were reunited as a school community under one roof. Even though we'd been separated for over a year we never stopped being WeGo together.

- Dr. Dwyer

A Message from the Principal

Being with family

Reading a book

Playing with pets

Celebrating birthdays

Hanging with friends

BACK TO SCHOOL

Hybrid Learning

Students were finally allowed to come back to school in a hybrid model at the beginning of second semester. We had one third of our students at a time on Tuesday, Wednesday and Thursday with Monday and Friday remaining as remote learning days. While many students chose to remain fully remote due to health and family concerns, it was great to have some life in the building and students were welcomed with some fanfare.

WEGO Tees

Transition Program Starts Their Own Business

In order to provide its students with real world work experience, the transition program started a custom t-shirt company this year. Students handle most aspects of the business, ranging from taking the order to setting up the t-shirt press to actually producing the final product. Students even produced their own commercial and had a viewing party to kick off their business. The staff who participated in the project have been nominated for the Illinois State Board of Education's 2022 Those Who Excel award. The business is funded through a grant provided by the Illinois Department of Rehabilitation Services.

VACCINATION Clinics

As different groups were eligible for vaccinations, administration put together vaccination clinics for the WEGO community, staff and students. At our very first clinic in February, approximately 2500 community members and staff from WCCHS as well as districts 25, 33 and 34 were vaccinated against COVID-19. This was followed by a clinic in March for students 16 and over and another in May when the eligibility age dropped to 12 and older. Staff members and student ambassadors put in many hours to help the clinics run effectively. We even got press coverage in the Tribune and on ABC 7 news.

April 29, 2021

COVID-19 Vaccinations

ACAD

EMICS

MOCK LEGISLATURE

Each year our seniors participate in a simulation of our state legislature organized by our very dedicated team of government teachers. This year, they got a big assist from our technology integration specialist, Mr. Clarke. The simulation was run completely online from command central, Mrs. Fikis' room.

As part of this exercise, our seniors discern where they are on the political spectrum, research and write bills, respectfully debate ideas, form caucuses and vote on their bills as a full class.

2021 Government Caucus

	Yes	No	Pres		Yes	No	Pres	
Strict Dem	21	16	15	Strict Rep	2	12	1	
Mod Dem	23	9	1	Mod Repub	1	11	2	
Cent Dem	11	29	1					
Total:				Total:				
TOTAL YES VOTES				TOTAL NO VOTES				
TOTAL PRESENT VOTES								

Enhanced REMOTE

While most students were out of the building, some teachers were able to invite students in for special activities like an outdoor field trip or science lab.

WEGO GRADUATION

2021

I want all my classmates to think about our first day in high school. All of us in the bishop gym trying to figure out our counselors and the different colors they had assigned. There were many new faces, either from Leman, Benjamin or Winfield, and I don't know about you, but the upperclassmen made my anxiety 10x worse. I remember trying to find my friends in the sea of bodies. We had our first pep rally and saw cheerleaders, pom boys, dance team and other various clubs. We played icebreaker games to get to know our new classmates and ate pizza from Pizza Now. Then, it was off to find our classrooms and new teachers. I was so scared. I thought I would get lost and wouldn't remember my teachers, and I was terrified, thinking, "I won't meet anyone new." Boy, was I wrong! And after that day, the last four years of our childhood began.

Part of me didn't want to include Covid-19 in my speech because we are so much more than "the kids who graduated high school in a global pandemic." And that is true. We are a unique, diverse and talented group of people who don't need something to define us. But the truth is, the pandemic showed us the people we want to be, and with whom it was, we wanted to surround ourselves. So yeah, it is a big part of our high school careers. It definitely won't define our abilities, but this hardship could be used as a great conversation starter in the future. March 13th, 2020 the Last Day of Normalcy. I remember everything getting canceled the day before. The drama competition shows, Latin Fever, spring sports and all academic or athletic travel were canceled along with so many of the annual traditions that students across the country have grown to look forward to and love (no matter how much we might pretend like we don't care). Even though we all understood the reasoning, it didn't necessarily fill the void that the

absence left. Parents were told to start working from home; teachers starting online schooling. It was different for all of us. We all thought it was going to be a two-week spring break and we would be back by April. We were very wrong. Quarantine was a struggle for me, and I know it was for everyone else. We were used to waking up at 6 and seeing everyone at school and after school activities and jobs and just being "normal." That was all taken away in the blink of an eye. Students, teachers and parents realized they had taken life before the pandemic for granted as our social interactions and gatherings, seeing the extended family, being able to teach in person, and so much more had been stripped away. As we slowly rejoin the world, one important thing I learned this last year is not to take ANYTHING for granted. Hug your friends and family when it's safe again. Hang out with people whenever you have the chance. Teach in person and not on-line. Do your after school activities with everything you have, because you never know when it will be taken away again. And most importantly, don't forget to tell all the important people in your life that you love them.

I want to thank all the parents, guardians, grandparents, aunts, uncles who helped us through high school. This is so cliché, but we wouldn't be

here without you. You drove us to rehearsal or practice. You were always there for every sports game and concert. You would buy our last-minute supplies for those projects we had two weeks to work on. You gave us a shoulder to cry on, gave us some of the best advice ever. We are truly in your debt for all the love and support you give us. I also want to thank our teachers. You helped us not only academically but emotionally. I can personally name at least 5 teachers who have helped me so much since freshman year. You want us to be the best versions of ourselves and push us to be the best because you see the light in us that not many do. So, on behalf of 2021, thank you. Finally, thank you to my classmates. Thank you for always putting a smile on my face when I am sad, making me laugh, making classes fun, and becoming my friends. We made it, guys. We have officially completed our childhood. And we're going to be moving on to bigger and better things. I just know it. And like the great greek philosopher Troy Bolton once said, "Once a Wildcat, Always a Wildcat." To the class of 2021, thank you and good luck.

SEASONS IN LIMBO

MANY SPORTS STOPPED MARCH 12 and by early July, it looked like there would be no college football when the Ivy League ruled out playing all fall sports. Other conferences soon followed suit. But then, more and more schools reversed course, beginning limited seasons and playing to empty or limited-capacity stadiums. Seasons continued to be plagued by players testing positive, forcing games to be rescheduled or canceled.

IN AN EFFORT TO RESUME the NBA season, the league invited the top 22 teams at the time of suspended play on March 11 to the ESPN Sports Complex at Walt Disney World in Orlando. The league created a protective bubble, severely limiting the players' exposure to anything or anyone outside the bubble. Teams arrived July 7 with play resuming July 30. Eight regular games determined which 16 teams progressed to post-season playoffs. In the end, the Los Angeles Lakers triumphed over the Miami Heat in the best of seven series, winning it all on Oct. 11. LeBron James won his fourth MVP, the only player to win MVP honors with three different teams.

ALTHOUGH THE FIRST U.S. CASE of COVID-19 was diagnosed in January, the country didn't begin shutting down until March when the World Health Organization declared the virus a pandemic. Sports halted, schools and all nonessential businesses closed as states began crafting plans for stay-at-home orders to curb the spread. **ESPECIALLY SUSCEPTIBLE TO CORONAVIRUS**, the elderly and those with health issues stayed isolated for months. Friends and relatives were forced to visit them from outside their windows. COVID patients in hospitals died alone, unable to have contact with their loved ones. **STATES SET UP TESTING CENTERS** where people waited for hours as lines of cars stretched for miles. The respiratory disease spread through droplets in the air with symptoms including fever, cough and sore throat. After taking the nasal swab test, people sometimes waited for weeks for results and labs were overwhelmed.

SUMMER HEATS UP

EXPERTS WARNED about crowds during summer holidays, but high temperatures drove people to beaches. After the Fourth of July, cases spiked and the U.S. death toll hit 50,000. Though the U.S. had only four percent of the world population, it had more than 20 percent of COVID cases, prompting Europe to ban travelers from the U.S. beginning in July. Some states imposed their own travel restrictions, requiring quarantines.

MEDICAL PERSONNEL became heroes, working long hours as their hospitals exceeded capacity. Large cities like New York resorted to temporary field hospitals to handle the overload. Though the numbers subsided in the summer, by the end of October, 230,000 had died in the U.S. At least 31 states set their one-day infection records in October, reporting a new case every 1.3 seconds during the last week of the month. **THROUGHOUT MAY** and early June, most states began a gradual, phased reopening after cases peaked in April. First came more essential services, then salons reopened. Restaurants reopened with limited capacity, and bars and gyms followed later. Most cities and states stressed social distancing, wearing masks and washing hands as preventatives, but local requirements varied widely.

RACE FOR A VACCINE

DUBBED OPERATION WARP SPEED, the race for a vaccine involved nearly 30 companies. By late summer, several potential vaccines had entered preliminary trials, but three major companies stopped their trials in early October due to adverse reactions in volunteers. Within the month, all were back on track. Although President Trump had talked of having a vaccine by November, medical experts predicted it would be at least early 2021 before one passed all the FDA trials, and it would take months before it became widely available to the general population.

NOT SO NORMAL

MOST SCHOOL YEARS ended in March 2020, and controversy swirled about whether schools should reopen in the fall. Plans varied from state to state, ranging from in-person instruction to virtual learning to a blend of both. Teachers tailored methods to accommodate, presenting to empty classrooms in many cases. Students who attended in person wore masks in socially distanced classrooms and endured quarantines as classmates tested positive for the virus.

COVID-19 TIMELINE

MARCH 2020–2021

Two days after the World Health Organization declared COVID-19 a pandemic on March 11, 2020, President Trump declared the virus a National Emergency, unlocking billions in federal funding to fight the spread of the disease. The country came to a halt in an effort to stop the virus from spreading. Retail businesses, gyms, hair salons and restaurants closed. Schools sent students home, sports seasons were canceled and travel bans took effect. The race began to develop a vaccine that would fight the virus.

MAY & JUNE

- **May 21:** Health and Human Services created "Operation Warp Speed" to accelerate the development, manufacture and distribution of vaccines to combat COVID-19.
- **May 21:** The U.S. and AstraZeneca formed a vaccine deal and predicted a vaccine could be ready by October.
- **May 23:** The U.S. death toll from COVID-19 reached 100,000.

NEW-NORMAL TRADITIONS

- With schools closed across the country, seniors missed out on the tradition of graduation. Many schools held drive-thru or virtual graduations complete with caps and gowns.
- **June 10:** U.S. cases reached 2,000,000 with cases up in 20 states.
- **June 28:** Texas and Florida halted reopening plans as cases rose.

AUGUST

- **Aug. 7:** Talks stalled in the Senate after the HEALS (Health, Economic Stimulus, Liability Protection and Schools) Act, a second stimulus bill, was introduced in late July.
- **Aug. 11:** The Trump administration paid \$1.5 million for 100 million doses of Moderna vaccine, still in phase three trials.
- **Aug. 17:** UNC Chapel Hill became the first university to send students home.
- **DEATH TOLL RISES**
- Coronavirus became the third leading cause of death in the U.S.
- Discussions began concerning how students could safely return to school, and districts developed plans for in-person instruction, remote learning or hybrid combinations of both.
- **Aug. 24:** The Radio City Music Hall Rockettes canceled their annual holiday show for 2020.

MARCH & APRIL

- **March 19:** California became the first state to issue a stay-at-home order, restricting travel to only necessary outings like doctor appointments and grocery shopping.
- **March 26-27:** The Senate passed the CARES (Coronavirus Aid, Relief and Economic Security) Act, a \$2.2 trillion economic stimulus package.
- **April 15:** New York City death toll rose to 10,000 and hospitals set up field facilities in tents to handle the overload of cases.
- **April 22:** The U.S. death toll reached 40,000.

JULY

- **July 2:** States reversed their reopening plans as new cases rose to 50,000 a day. Experts warned of a holiday surge and Southern California closed beaches for the Fourth of July.
- **July 14:** Moderna Therapeutics announced desired immune responses in phase one and two trials of their vaccine.
- **July 16:** Daily new cases in U.S. set a record at 75,600.
- **July 21:** Vaccines from AstraZeneca showed promise.
- **July 27:** Moderna began phase three trials and received \$472 million from the U.S. government for development.

SEPTEMBER

- **Sept. 14:** Pfizer, a biopharmaceutical company, expanded their phase three vaccine trials.
- **Sept. 20:** U.S. death tolls reached 200,000.
- **Sept. 21:** Johnson & Johnson began phase three vaccine trials.
- **FIRST VARIANT APPEARS**
- **Sept. 23:** A new, more contagious strain of the COVID virus was identified in the UK.
- **Sept. 28:** Global deaths surpassed 1,000,000.
- **Sept. 30:** Disney laid off 28,000 workers as Disneyland remained closed and Disney World was open with restrictions.

OCTOBER

- Oct. 2: President Trump, the first lady and the couple's son Barron all tested positive for COVID-19. The president was hospitalized for three days, while others quarantined at home in the White House.
- Oct. 8: A COVID-19 outbreak at the White House infected at least 34 people. County-wide, 39 states saw an increase in new infections.
- Oct. 19: Global cases reached 40 million.
- Oct. 23: After halting trials on Oct. 12 because of adverse reactions, Johnson & Johnson resumed research and testing. AstraZeneca, which halted trials of its vaccine in early September also later resumed trials.

DECEMBER

- Dec. 8: The first vaccine was administered in the UK. President-elect Biden promised 100 million shots in his first 100 days in office.
- Dec. 11: The Food and Drug Administration gave emergency approval for the Pfizer vaccine, and the first vaccine administered state-side happened three days later. A second dose was required three weeks later. The first vaccines went to healthcare and front-line workers and people older than 75.
- » **ANOTHER GRIM MILESTONE**
- The U.S. death toll reached 300,000.
- Dec. 18: Moderna received EUA with the first shot given Dec. 21, followed by a second dose after four weeks.
- Dec. 29: The first case of the UK variant was diagnosed in Colorado. Globally, there was one death every 7.4 seconds.

FEB. 1-15

- Feb. 1: Supply issues and crashing software hampered the vaccine rollout. States opened mass vaccination sites to deal with high demand.
- » **DOWNWARD TREND**
- Feb. 4: New cases fell below one million in a seven-day period for the first time since Nov. 13.
- Feb. 9: Florida tallied 200 diagnosed cases of variants.
- Feb. 12: After peaking at 23,541 per day on Jan. 14, U.S. deaths continued to decline.
- Feb. 15: The CDC determined schools could reopen safely if they follow recommended safety measures.

NOVEMBER

- Nov. 4: U.S. set a record of 100,000 new cases in single day.
- Nov. 9: Pfizer published the results of their vaccine trials, followed by Moderna just one week later.
- » **OMINOUS STATISTICS**
- Nov. 11: For the first time, all 50 states reported an increase in cases.
- Nov. 19: New Orleans canceled 2021 Mardi Gras parades and residents immediately came up with a plan to create "house floats" instead.
- Nov. 20: As Pfizer applied for Emergency Use Authorization (EUA), the CDC warned against holiday travel and multi-generational get-togethers.

JANUARY

- Jan. 4: The UK variant was diagnosed in three more states.
- Jan. 13: People older than 65 first became vaccine-eligible, but supply could not keep up with demand.
- Jan. 20: U.S. deaths surpassed 400,000. Attendance at the presidential inauguration was reduced dramatically as members of Congress — who normally got a total of 200,000 tickets — received two each, allowing them a single guest.
- Jan. 27: Travel restrictions requiring a negative COVID test for passengers flying into the U.S. began.
- Jan. 29: A South African variant was documented in South Carolina.

FEB. 16-MARCH

- Feb. 16: Variant cases surged, with 1,173 cases of the UK strain in the U.S.
- Feb. 18: Due to COVID, life expectancy in the U.S. reached its lowest in 15 years, according to the CDC.
- Feb. 22: U.S. death toll passed 500,000. Political officials marked the grim milestone with a solemn White House ceremony.
- Feb. 27: Johnson & Johnson received EUA and began shipping vaccinations.
- Mar. 2: Despite advice against it from health officials, the governors of Texas and Mississippi announced plans to drop mask mandates and reopen their states at 100 percent beginning on March 10.

THIS IS SUMMER

THINGS HEAT UP

ENTERTAINING RELEASES

INTRODUCING A DIFFERENT VIBE, Taylor Swift dropped a surprise record "Folklore" in July, her eighth studio album. Driven by piano and guitar, the songs are more mellow than her previous work. Selling two million copies in the first week, it set a Guinness World Record for the biggest opening day for an album by a female artist on Spotify. **QUEEN BEY MADE NEWS** with the release of "Black is King" on July 31. Beyoncé's musical film and visual album got its inspiration from "The Lion King: The Gift," an album she recorded after voicing Nala in Disney's remake. "Black is King" focuses on a young African king who is cast out as a baby and returns to reclaim his throne as an adult.

THE DEATH OF GEORGE FLOYD, a 46-year-old Black man in Minneapolis, set off a summer of unrest and clashes between protesters and police. After a convenience store employee called 911 to say Floyd passed a counterfeit \$20 bill, police detained him with an officer kneeling on his neck for more than eight minutes as Floyd repeatedly said he couldn't breathe. Floyd died as a result. **"SAY THEIR NAMES"** became a rallying cry as protesters took to the streets beginning in late May. A series of Black deaths at the hands of police sparked demonstrations across the nation. **A BROADER MOVEMENT**, Black Lives Matter, and an examination of systematic racism in America emerged from the death of George Floyd. Demonstrators toppled statues of Confederate figures, NASCAR banned any display of the Confederate flag and Asheville (NC) City Council voted in support of community reparations for Black Asheville. Brands like Aunt Jemima and Uncle Ben's and sports teams such as the Washington Redskins took steps to change their names. **IN THE MIDST OF THE BLM MOVEMENT**, Georgia Representative John Lewis died of pancreatic cancer in mid-July. Lewis, the son of sharecroppers, was the last surviving speaker from the 1963 March on Washington where Martin Luther King, Jr. delivered his famous "I Have a Dream" speech. Before his funeral and burial in Atlanta, he was honored in Selma, Alabama, where he grew up.

NATURE ON A RAMPAGE

ALTHOUGH THE ATLANTIC HURRICANE SEASON didn't start until June 1, two named tropical storms developed in May, brushing the Carolina coasts. The first hurricane of the season, Hanna, hit Padre Island, Texas, July 25, followed by Isaias which hugged the coasts of Florida and Georgia before making landfall in North Carolina. **EXTREME HEAT ALONG THE WEST COAST** created a ripe environment for wildfires that spanned from Washington through California and into Arizona. Fires started in Washington in April, continuing through the summer. In Oregon, fires caused Portland to have the worst air quality on earth. California had its largest wildfire season in history, burning more than four million acres and destroying more than 9,000 structures.

THOUSANDS OF PEOPLE participated in a march across the Brooklyn Bridge, closing it down, on July 25. The march condemned the use of federal troops to curb protesters in Portland, Oregon. Demonstrations, mostly peaceful, in support of Black Lives Matter and justice for George Floyd and others continued throughout the summer in cities across the country.

ANYONE HUNGRY?

MOST SUMMER SPORTS were effectively ended by COVID-19. The French Open and Kentucky Derby both moved to September and baseball season was shortened. But Nathan's Famous hot dog eating contest, a Fourth of July tradition, endured. Joey Chestnut won for the 13th time, downing 75 hot dogs in 10 minutes. Miki Sudo captured the women's prize, eating 48.5.

ONE BIG BUG

WILDFIRES, RECORD HEAT, TORNADOES — then came the murder hornets, making their first appearance in the Pacific Northwest in the spring and spotted elsewhere through the summer. The Asian giant hornet, which can grow to two inches, kills up to 50 people in Japan each year and poses a threat to honeybees. Researchers hoped to eradicate them before they become established.

3 ... 2 ... 1 ... BLASTOFF

SPACEX, A PRIVATE SPACE COMPANY founded by Elon Musk, launched two NASA astronauts into space on its Falcon 9 rocket on May 30. This marked the first time NASA launched its own astronauts in nearly a decade. Since 2011, US astronauts had been sent into space on Russian rockets. While Falcon 9 returned to earth, Crew Dragon carried Bob Behnken and Doug Hurly to the International Space Station where they were scheduled to spend several months.

GOODBYE, NOTORIOUS RBG

SUPREME COURT JUSTICE Ruth Bader Ginsburg died on Sept. 18 at the age of 87. Despite battling multiple forms of cancer for a number of years, she continued to work on the Court until the time of her death. Ginsburg served 27 years on the nation's highest court. Her law career started in the 1970s when she led the fight in the courts for gender equality. In 1993, Bill Clinton nominated her as the second woman on the Supreme Court where she continued to champion women's rights. During her years on the court, she became a role model for women of all ages. She was the subject of a documentary, a biopic and an operetta, earning the moniker "Notorious RBG." After lying in repose outside the Supreme Court, she became the first woman to lie in state at the United States Capitol.

FANS REACTED WITH SHOCK at the news that Chadwick Boseman, the star of "Black Panther," had died at the age of 43 on Aug. 29. Boseman had been diagnosed with colon cancer four years earlier.

He had not publicly revealed the diagnosis, undergoing surgeries and chemotherapy while continuing to act. A Howard University graduate from South Carolina, he had played small roles on television until his portrayal of Jackie Robinson opposite Harrison Ford in the movie "42" made him a star. In addition to Black Panther and Robinson, he also starred as James Brown and Thurgood Marshall.

BTS's SINGLE "DYNAMITE" became the first video watched more than 100 million times in 24 hours on YouTube. The seven-member boy band from South Korea debuted in 2013 as a hip-hop group, but it wasn't until 2017 that they led the K-pop movement into the U.S., breaking numerous sales records.

CARS RACED in front of empty stands at the Indy 500 on Aug. 23. COVID-19 forced the delay from May 24 and caused race organizers to prohibit fans. Takuma Sato took the checkered flag for the second time, with the last five laps run under a caution due to a crash. **THE EMMY AWARDS**, hosted by Jimmy Kimmel, took place virtually on Sept. 20. Kimmel hosted from the Staples Center in Los Angeles with winners giving speeches from their homes. "Schitt's Creek" became the first comedy or drama series to win all four main acting categories in a single year. The show, created by and starring Eugene Levy and his son Dan, also became the first series to win all seven major awards in a single year, sweeping the awards with nine total. **LADY GAGA TOOK HOME** Artist of the Year honors at the MTV Video Music Awards on Aug. 20. She also won the first-ever Tricon Award which honors a highly accomplished artist across three disciplines. Keke Palmer hosted the show featuring mostly pre-recorded performances. Other winners included The Weeknd for Video of the Year and BTS for Best Group. The show was dedicated to Chadwick Boseman who had died two days before.

WILD, WILD WEATHER

A STATE OF EMERGENCY was declared in California when wildfires caused by lightning, record heat and winds burned across the state. More than 40 significant wildfires began there in August and September. On Aug. 4, Hurricane Isaias made landfall in North Carolina and, before month's end, Hurricane Laura hit Louisiana as a Category 4 with winds so strong they reversed the flow of the Mississippi River. Even the Midwest was not spared the wrath of Mother Nature as a derecho with 125-mph winds flattened fields, uprooted trees and spawned 21 tornados along a 700-mile stretch as it moved through seven states and into southern Ontario.

UNREST IN LOUISVILLE

TENSIONS CONTINUED to run high in Louisville, Kentucky, when a grand jury convened in the death of Breonna Taylor indicted only one police officer for wanton endangerment for firing into a neighbor's apartment. No one was charged in Taylor's death. Taylor, a 26-year-old Black EMT, was shot and killed in her apartment when police served a search warrant in March. A judge granted the warrant based on the belief that a former boyfriend had received packages of drugs at Taylor's address. Taylor and her current boyfriend were asleep when police broke down their door. Although the officers involved say they announced, some witnesses and Taylor's boyfriend deny that. The boyfriend, not knowing who was breaking in, fired one shot. Police returned fire, hitting Taylor multiple times. Controversy continued over a possible cover-up and whether the grand jury had been given all the evidence by the district attorney.

NATURE NOTES

WRANGLERS REMOVED 5,000 pythons from the Florida Everglades. Volusia County, on Florida's Atlantic Coast, saw its fourth shark attack of the year. West Virginia battled zombie cicadas under the influence of a psychedelic fungus that caused them to infect other insects. On a lighter note: Mei Xiang, a 22-year-old giant panda at the National Zoo in Washington D.C. gave birth to a cub on Aug. 21.

TAKING THE TITLE

THE LOS ANGELES DODGERS won their first World Series in 32 years on Oct. 20, beating the Tampa Bay Rays 8-3 in Game 6. The 60-game regular season was the shortest in history due to the pandemic, but it led to the longest post-season on record with 16 teams competing. LA shortstop Corey Seager was named World Series MVP. Game 6 set a record for the most strikeouts, and the Dodgers used seven pitchers — the most ever used by a winning team in a nine-inning clincher.

MOTHER NATURE

PERSISTS

NATURAL DISASTERS CONTINUED to make news through the fall. California was plagued by wildfires since early spring. The Glass Fire burned through Napa and Sonoma counties, destroying 67,484 acres, including a number of vineyards, and forcing the evacuation of at least 68,000 residents before the blaze was fully contained on Oct. 20. The coast of Louisiana took yet another hit as Hurricane Zeta made landfall as a Category 2 late in October. The 2020 hurricane season saw a record-breaking 30 named storms, including six major hurricanes. An average season had 12 named storms and three major hurricanes. Twelve of the storms in 2020 made landfall in the continental United States. The season marked only the second time in history that the Greek alphabet had to be used to name storms.

IN THE MUSIC WORLD, singer/songwriter Eric Church was named Artist of the Year at the Country Music Awards, and the American Music Awards bestowed the same honor on Taylor Swift. When the Grammy nominations were announced, Beyoncé set a record with nine, while Swift, Roddy Ricch and Dua Lipa garnered six nominations each.

"JEOPARDY!" HOST ALEX TREBEK, who announced his diagnosis of stage 4 pancreatic cancer in March 2019, died Nov. 8 at the age of 80. He taped his final appearance as host on Oct. 29. Trebek hosted the TV show for 37 seasons. Ken Jennings, the highest money winner in game show history, served as the first of several interim hosts while the network sought a new permanent host. October also marked the deaths of rocker Eddie Van Halen and Scottish actor Sean Connery, the original James Bond.

M

MAJOR MILESTONES

OCTOBER/NOVEMBER UPDATES

NO FANS LOOKED ON as Dustin Johnson won the Masters golf tournament with the lowest score in the history of the tournament. Pandemic concerns created a one-of-a-kind Masters: No spectators, no ropes and only one guest for each player. Johnson finished 20-under at 268 with only four bogeys in 72 holes, another record. Tiger Woods, the defending champion, helped him put on his green jacket.

THE ROCK AND ROLL HALL OF FAME welcomed a new group of inductees on Nov. 7. Honorees included The Doobie Brothers (pictured), Depeche Mode, Whitney Houston, Nine Inch Nails, The Notorious B.I.G. and T. Rex. The ceremony was broadcast on HBO after the live ceremony, scheduled for May 2, was cancelled due to the pandemic.

DELAYED RESULTS

THE PRESIDENTIAL ELECTION took place on Nov. 3, and voters turned out in record numbers. The results were close enough that several states could not be called. On Nov. 7, Joe Biden reached the required number of 270 electoral votes and became the president-elect. He and vice president-elect Kamala Harris addressed the nation that night.

COVID HITS THE WHITE HOUSE

PRESIDENT TRUMP sent a tweet on Oct. 2 announcing he had tested positive for COVID-19. He was hospitalized later that day at Walter Reed National Military Medical Center following a dip in his oxygen levels. He returned to the White House three days later after receiving an experimental drug cocktail. The First Lady and son, Barron, also tested positive and quarantined at the White House.

NEW JUSTICE

WITH THE DEATH of Supreme Court Justice Ruth Bader Ginsburg in September, President Trump nominated Amy Coney Barrett to fill the vacancy. Democrats argued that the position should not be filled before the presidential election, but on Oct. 26, Barrett was confirmed with a 52-48 vote in the Republican-led Senate. The vote marked the first in modern times with no support from the minority party. Barrett, who once clerked for Justice Antonin Scalia, was a professor at the University of Notre Dame Law School for 15 years before her appointment to the 7th US Circuit Court of Appeals in 2017.

AN ACTIVE WINTER

DECEMBER/JANUARY UPDATES

ATHLETIC ACCOLADES

DEVONTA SMITH, an Alabama Crimson Tide wide receiver won the 2021 Heisman Trophy.

A senior, Smith was the first wide receiver to win the trophy since 1991. He was also named The Associated Press Player of the Year — the first wideout to win that honor. He scored three touchdowns in Alabama's win over Ohio State for the National Championship in the 52-24 game on Jan. 11.

BARCELONA SOCCER PLAYER Lionel Messi scored goal number

644 on Dec. 22, breaking Pele's long-held record for the most goals scored for a single club. The Argentinian, a six-time winner of the Ballon d'Or award, was also the highest scorer in the history of La Liga with 451 goals.

AS THE INAUGURATION CEREMONY ends on Jan. 20, newly installed President Joe Biden and his wife, Jill, leave the Capitol Building. Record voter turnout and close counts in a number of battleground states delayed the election results. Biden and the vice president, Kamala Harris, were declared the winners on Nov. 7, four days after election day. **LADY GAGA CHATS** with Vice President Harris and her husband, Douglas Emhoff, after singing the National Anthem at the inauguration. The election marked a number of firsts, including the first woman, the first African American and the first Indian to hold the office of Vice President. **WITH THE COVID PANDEMIC** raging, the large crowds that normally witnessed the inauguration were limited.

To represent those who could not attend, the Presidential Inauguration Committee installed more than 191,500 state and territory flags on the National Mall. **BERNIE SANDERS**, the Independent senator from Vermont, created quite a stir — and countless memes — with his inaugural mittens. Made from recycled wool and lined with fleece made from recycled plastic, they were given to Sanders by a Vermont elementary teacher. The memes, placed on sweatshirts, t-shirts and stickers, helped raise more than \$1.8 million for charitable organizations in Vermont. **PRESENTING HER POEM**, "The Hill We Climb," Amanda Gorman became the youngest inaugural poet in U.S. history. A poet and activist, she was named the first National Youth Poet Laureate. Her inaugural poem generated international acclaim, boosting two of her books to best-seller status.

KING

AARON

TYSON

THE LOSS OF LEGENDS

WE LOST A NUMBER of sports and entertainment legends in January. Larry King, a television and radio host, died at 87. With awards that included a Peabody, an Emmy and 10 Cable ACE Awards, he hosted more than 50,000 interviews. "Hammerin' Hank" Aaron played 23 MLB seasons. Dubbed the Home Run King, he was inducted into baseball's Hall of Fame in 1982. Cicely Tyson, a model and actress, won a Tony in 2013 and two Emmys for her role in "The Autobiography of Miss Jane Pittman." She was 96. Cloris Leachman won eight Daytime Emmys during a career that spanned seven decades. She appeared on "Dancing With the Stars" at the age of 82.

LEACHMAN

UNCONVENTIONAL HOLIDAYS

2020 HOLIDAY DINNERS looked different for many families. While some were able to hold multigenerational gatherings, many postponed or sought other ways to celebrate together, avoiding travel and larger groups. AAA estimated that approximately 34 million fewer Americans traveled for December holidays, representing a decrease of nearly 30 percent from 2019. **TIMES SQUARE'S ICONIC BALL DROP** took place with a group of about 40 frontline pandemic workers dubbed "Heroes of 2020" by event organizers replacing the usual throngs of revelers. The "New Year's Rockin' Eve" special still aired, complete with the countdown, confetti and live performances by Andra Day, Jennifer Lopez, Pitbull, Gloria Gaynor and others.

GAMESTOP MANIA

AT THE BEGINNING of January, GameStop shares were selling for \$20. Two weeks later the price was \$483. The increase was fueled by largely rookie traders encouraging one another on Reddit to buy shares. Although the GameStop bubble passed quickly, activity from young traders seemed more lengthy, with 3.7 million downloads of Robinhood, a commission-free trading and investing app, in January.

MARKING MILESTONES

IN LATE SEPTEMBER, the COVID-19 Memorial Project installed 20,000 small flags on the National Mall to commemorate those who had died from the pandemic. At that point, predictions of 240,000 future deaths seemed impossible. But on Feb. 22, the U.S. surpassed 500,000 deaths. President Biden and wife Jill, along with other officials, marked the grim milestone with a candle-lighting ceremony and a moment of silence. Biden also ordered flags at federal buildings flown at half-staff for five days.

A BLOW TO TOURISM

COVID-19 IMPACTED tourism in multiple ways. Broadway went dark in March 2020. In September, the closures were extended until 2021, then later pushed to May 30. The eight Smithsonian museums in Washington, D.C. also closed in March. The museums reopened in July and closed again just before Thanksgiving. Both Disney World in Florida and Disneyland in California shut down in March. Disney laid off 28,000 workers in September and another 32,000 in November. Although Disney World reopened to limited numbers in July, Disneyland remained closed a year later.

TO KEEP UP WITH the demand for vaccines, states created super sites, opening sports arenas and convention centers to handle the load. Communities created drive-thru vaccination sites like this one in Arizona. By early March, more than 16 percent of the U.S. population had received one dose and more than 8 percent had been fully vaccinated. Demand for the vaccine continued to outnumber available doses, creating frustration for those trying to schedule appointments.

AS EARLY AS APRIL 2020, the CDC recommended face masks to curb the spread of COVID-19. Each state issued its own requirements, and as many as 35 states mandated masks at some point. After peaking in January 2021, the pandemic began to ebb with the introduction of vaccines. Masks were still required in 30 states at the end of February. **THE FDA GRANTED** emergency use authorization (EUA) for the Pfizer vaccine on Dec. 11. Just three days later, the first U.S. vaccine was administered. One week later, Moderna received EUA, and their first vaccine given Dec. 22. Both early vaccines required two doses several weeks apart for highest efficacy. Health care and frontline workers, and people older than 75 received vaccine priority. A third vaccine, by Johnson & Johnson, which required only one dose and less extreme storage temperatures, was approved Feb. 27.

HOLIDAYS AT A DISTANCE

EXPERTS WARNED against gatherings during the holidays to avoid a spike in COVID cases. Shopping mall Santas greeted children from behind face shields and plexiglass. Families shared holiday meals via Zoom. Despite the warnings and precautions, January became the deadliest month in the U.S. for the pandemic. Total deaths surpassed soldier fatalities in WWII. In addition, variants of the virus were identified in three states on Jan. 4. By the one-year anniversary of the first U.S. case on Jan. 20, more 400,000 Americans had died from the virus.

BRINGING A LITTLE LEVITY to the time of COVID, the citizens of New Orleans created "Yardi Gras" as a way to maintain the spirit of Mardi Gras. Parades and more were cancelled, so many families decorated their homes, some with the help of professional float artists who were temporarily out of work because of the pandemic. According to the mayor — because it's a religious holiday — "Mardi Gras was not cancelled, just different."

FLAT FANS

FROM ATHLETES TO SPECTATORS, the pandemic continued to affect sports. Some high schools moved their football seasons to spring. Major sporting events like college bowl games and Super Bowl LV were played with limited fans. The World Series, held at the 40,300-seat capacity Globe Life Park, allowed only 10,550 fans and filled many of the lower empty seats with cardboard cutouts.

IN SCHOOL OR OUT?

IN JANUARY 2021, the CDC said it was safe for schools to open but controversy continued. Educational plans varied from school to school, district to district and state to state. Plans ranged from in-person instruction — with masks, social distancing and barriers — to remote learning from home, or a hybrid combination of both. Some schools offered both in-person and virtual options and let students and parents decide, while others offered alternate-day plans. Experts, teachers and parents agreed in-person instruction benefited students the most. By late winter, there were discussions about offering summer classes in some areas.

A FINAL NOTE

It is a large task to try to incorporate everyone into one massive book under the best of circumstances, and this year was a bigger challenge than most. We tried our best to feature as many students, sports, activities, staff and clubs as possible. We hope that we have highlighted the diverse interests of our incredible student body and staff.

We used a variety of sources and submission methods as we attempted to capture the school year to the best of our abilities. Some of what we tried did not work due to low response rates. We are sorry if you took the time to fill something out that we did not use.

We also acknowledge that it is impossible to make an error-free book. We apologize in advance for any mistakes made. Please know that they were unintentional. If you are really good at catching editorial errors, perhaps you would like to join us next year. We could use the help.

Thank you to Mrs. Campos, Mrs. Cuautle Godinho and Mrs. Koltz for helping us with pictures and information.

We hope you like what we have been able to put together.
